A general objective coherent with
the aims of the UNESCO Global Geoparks.

To establish, along with the Global Geoparks Network,
an international network of young people
that define themselves as
geoparkers: the storytellers
of the history of the Earth.

I am a Geoparker!

A general objective coherent with
the aims of the UNESCO Global Geoparks.

Networking.
Education.
Awareness.
Sharing experiences.

I am a Geoparker!

How to become a Geoparker:

I am a Geoparker!
A global educative project

I am a Geoparker!

How to become a Geoparker:

1.

Geopark's educative activities provide training about the geological processes that shape their landscape and some other aspects linked to their territory.
That includes as well the stories that constitute the living memory of said territory as an emotional bond between people and land.

How to become a Geoparker:

2. After this training, pupils must try to explain these processes as a little story using different resources: videos, slide presentations, speeches, papers, etc.

How to become a Geoparker:

3.

The explanations may be shared with other youngsters around the world using a common website, a youtube channel or a book with selected stories.

How to become a Geoparker:

4.

Young people that complete a story
become geoparkers!
and enter in an international club
of geoparkers all over the world.

What does being a Geoparker mean:

To be someone that belongs to an international fellowship
that preserve lots of stories about Earth,
amazing stories to tell to other kids, anywhere at any moment.

To be someone that understands how important the heritage is.

Furthermore, this understanding founds the reason why
he or she will decide to look after the planet.

I am a Geoparker!

I am a Geoparker!

THE PROJECT. Three specific objectives:

Specific objective 1:

To tell the History of the Earth by gathering the stories that the students can tell about their own geopark and their own culture and about the people that live there, using the language and experiences of their own age.

I am a Geoparker!

THE PROJECT. Three specific objectives:

Specific objective 2:

To facilitate the means and tools to build stories to tell and the spaces to share them.
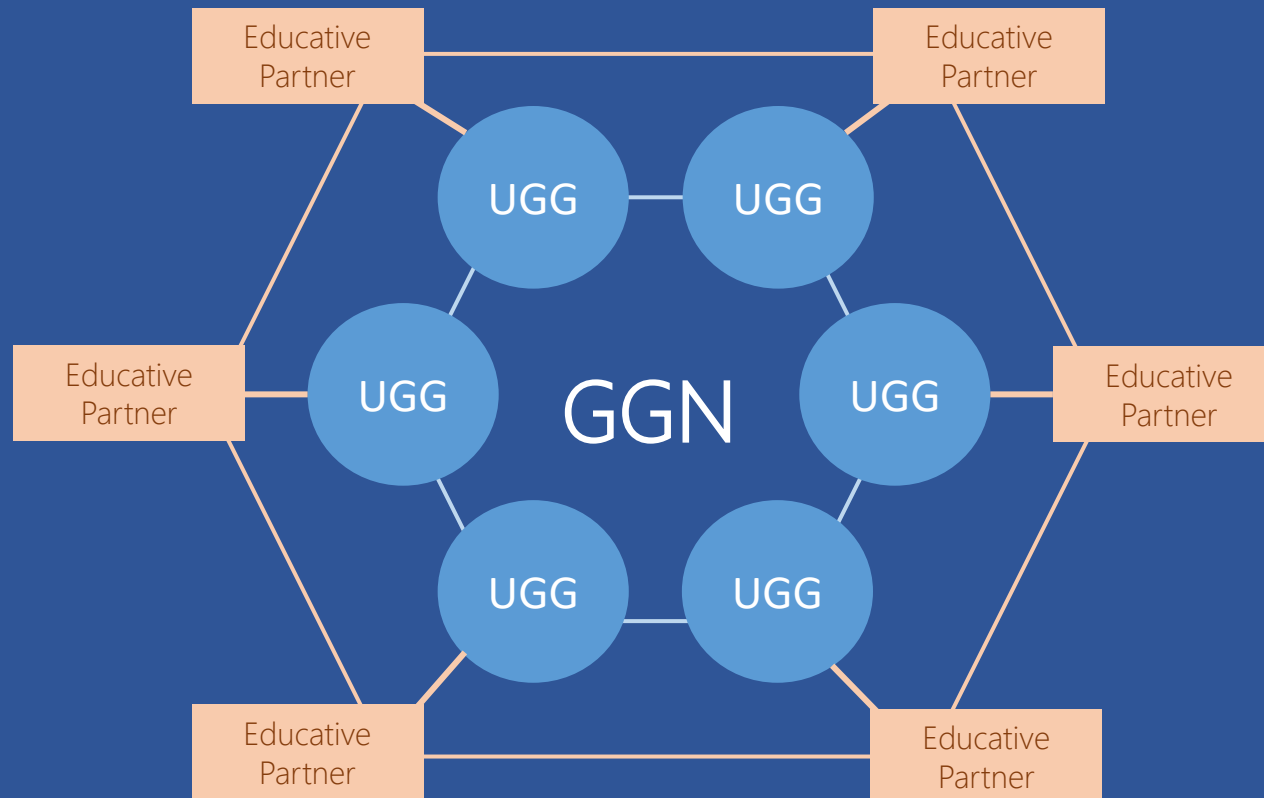

I am a Geoparker!

THE PROJECT. Three specific objectives:

Specific objective 3:

To make the project visible in the GGN and recognize the efforts made by young people and their educational community (educational ecosystem).

I am a Geoparker!

THE PROJECT. Seven Groups of Task:

GT1

To collect stories and educative experiences of the participant UGGs.

Expected result: A collection of stories distributed as puzzle pieces of the History of the Earth.

I am a Geoparker!

THE PROJECT. Seven Groups of Task:

GT2i

To promote the project among the educative centres in the geopark territory.

Expected result: A group of geoparks and educative centres able to share stories and experiences.

I am a Geoparker!

THE PROJECT. Seven Groups of Task:

GT3.

Website as a main space to share and collect stories.

Expected result: A virtual playground.

I am a Geoparker!

THE PROJECT. Seven Groups of Task:

GT4

To build a tool-box, instructions included, that can be downloaded from the website.

Expected result: An improvement of the local methodologies and tools for telling and sharing stories.

I am a Geoparker!

THE PROJECT. Seven Groups of Task:

GT5:

To constitute an Educative Workgroup at the GGN and its regional networks to manage this project and other educational activities.

Expected result: The project has a continuous steering workgroup and is able to aggregate as much UGGs as possible.

I am a Geoparker!

THE PROJECT. Seven Groups of Task:

GT6.

To design a common image for diffusion and awards.

Expected result: To choose and produce the best tools for diffusion. A diffusion plan.

I am a Geoparker!

THE PROJECT. Seven Groups of Task:

GT7

To design the procedures of awarding.

Expected result: An evaluation system for awarding new geoparkers.

I am a Geoparker!

A PROJECT OPENED TO ALL THE UNESCO GLOBAL GEOPARKS.
